

1. The owner & developer of the property is S.F. Business Investments, LLC. The subject property is A002801, Maria Kegan (ICL), Tract 32. The property is zoned C-3, Commercial.
2. Total lot acreage is 3.65 Acres.
3. Proposed use and improvements: Convenience Store and Lease Space along with; parking, utilities, & landscaping.
4. This lot is not within the 100-YR floodplain according to the DFIRM for Brazos County, Texas and Incorporated areas, Map No. 48041C0250E, effective May 16, 2012 and Map No. 48041C0220F, effective April 2, 2014.
5. The storm water runoff from this site will be controlled by a regional collection and detention system.
6. Front building setback lines of 25', side building setback lines of 7.5' and 15', and rear building setback line of 7.5' apply to this lot.
7. Developer/Tenant to submit electrical load information when requesting electrical service from BTU. Contact Line Design @ 821-5770.
8. Drainage information and details will be provided on the Grading Plan.

1. All concrete to be constructed with 4000 psi (Min) - 28 day strength portland cement concrete.
2. All items to be removed during clearing and grubbing. Remove not only the above ground elements, but all underground elements as well. All excavated material shall become the property of the contractor unless otherwise directed by the Owner. All debris must be disposed of off site.
3. Prior to grading operations, contractor is to strip the first 6" of soil. Contractor shall proof roll the entire site and remove any unstable materials according to TxDOT Specifications. Select fill is to be used in replacing objectionable material.
4. Assure positive drainage across project site to the storm water structures.
5. Normal Domestic Wastewater is anticipated to be discharged from this development.
6. Potable Water Protection - All devices, appurtenances, appliances, and apparatus intended to serve some special function and that connects to the water supply system, shall be provided with protection against backflow and contamination of the water supply system.
7. Irrigation System - Potable water supply must be protected by either an atmospheric or pressure vacuum breaker, or testable double check valve assembly, and installed per City Ordinance.
8. Each utility contractor is responsible for positioning and trenching of service lines. Mark all lines with utility tape. Utility contractors are responsible for coordinating with paving contractor in placement and installation of any necessary utility conduit prior to subgrade preparation. Lines requiring slope control are to be installed first. All other lines not requiring slope control or elevation shall be installed deepest first. Each contractor is responsible for knowing final determination of installation order.
9. Materials and methods for pavement markings shall conform to TxDOT Standard Specifications for Construction of Highways, Streets, and Bridges (current edition), with the following exceptions: 1) Type II Marking materials need not be purchased from the Department, and 2) Glass beads may be omitted, but marking material shall be Type II paint-type material.
10. The Contractor shall be responsible for the containment and proper disposal of all liquid and solid waste associated with this project. The Contractor shall use all means necessary to prevent the occurrence of windblown litter from the project site.
11. Demolition/Construction Waste - Site is required to provide containment for waste prior to and during demolition/construction. Solid waste roll off boxes and/or mini dumpsters shall be supplied by City to permitted contractor(s) only.
